

Trains Impacting My Performance

Q: I have a route that finds me stuck at railroad crossings for freight trains several times a week. What can I do to minimize the fuel economy and idle impact?

A: Very simple. Put the vehicle in park, apply the parking brake, and turn the vehicle off. Many municipalities have signs asking you to shut the vehicle off while trains are present to avoid noise and fumes in certain areas. Once you see the last train car pass, start back up and be prepared to proceed.

Idealease is committed to helping your team Elevate their Performance. You will receive a weekly Question or Tip of the Week explaining different elements of the scorecard, tips to improve Key Performance Indicators (KPI's), or other motivational topics to keep the team (s) striving for excellence behind the wheel. If you have a question or would like a topic covered, please email jerryring@idealease.com.
