

CVSA SAFE DRIVER WEEK 2023

Q: When is Commercial Vehicle Safety Alliance (CVSA) Safe Driver Week, and what are they going to focus on?

A: This year the CVSA's annual Safe Driver Week is from July 9th-15th, 2023. From operating a vehicle while using a cell phone, to speeding, Operation Safe Driver focuses on all aspects of safety.

The good news is our customers who engage with the ELEVATE® scorecard have improved their driver behaviors each month. Continued improvement and focus on the opportunities the ELEVATE team presents to you and your fleet(s) helps keep the roadways safer each and every day of the year.
