

**Q: When is CVSA's Safe Driver Week, and what are they going to focus on?**

**A:** This year, law enforcement will be on the lookout for drivers engaged in risky driving. Identified unsafe drivers will be pulled over and issued a citation or warning. Operation Safe Driver Week is scheduled for July 10th-16th throughout North America this year.

The good news is our customers engaged with the ELEVATE® scorecard have improved their driver behaviors every month. Continued improvement and focus on opportunities the ELEVATE team presents to you and your fleet(s) helps keep the roadways safer each and every day of the year.
