

This Week: Fall Improvements Coming

10/2/2019

Fall Improvements Coming

Q: What changes can I expect from my fleet performance now that fall is approaching?

A: As we have monitored fleets over the past several years, we've seen clear seasonal

behavior changes. Fall offers prime-time fuel economy and idle reduction opportunity, as the weather becomes neutral and more enjoyable.

Drivers need less heat or air conditioning daily, so they naturally tend to reduce their idle. Habits sometimes prove tough to break, so this season is also a great time to focus coaching on idle behaviors. Talk to your drivers about *Idle Shutdown Timer* triggers and unnecessary *PTO hours* showing up on their scorecards.

Once you break those habits, you can maintain your improvements as you move into the colder winter months that are just around the corner.

If you need help with these coaching sessions, please feel free to reach out to me ([Jerry Ring](#)) for assistance and additional details on your vehicles.

Idealease is committed to helping your team Elevate their Performance. You will receive a weekly Question or Tip of the Week explaining different elements of the scorecard, tips to improve Key Performance Indicators (KPI's), or other motivational topics to keep the team (s) striving for excellence behind the wheel. If you have a question or would like a topic covered, please email jerryring@idealease.com.
